

## Concrete Foot Volleyball Table Anthracite

Product code: VV.A

Foot volleyball played on a gaming table is also known as Teqball. Where does this game come from? In 2014, a Hungarian footballer introduced it. A combination of table tennis and football. This game is a sport where players use their shoulders, head, chest, legs and feet to get the ball to the other side of the game table. A game fit to train technique and skills.

What is a foot volleyball table?

To play the sport Teqball you need a game table. It is a table that is curved and resembles a ping-pong table. The HeBlad foot volleyball tables are made from a single piece of robust concrete and have exactly the specifications that guarantee that the Teqball game can be played well. The table will provide years of fun and will remain in perfect condition regardless of the weather conditions the table experiences.

Specifications of the anthracite foot volleyball table

What are the features of the anthracite foot volleyball table from HeBlad? All HeBlad products radiate solidity and beauty. The robust concrete is of high quality and resistant to vandalism. The foot volleyball table guarantees for decades of use, without losing its beautiful appearance and functional aspect. The base and net of this anthracite version are made of natural concrete. The table top is painted with anthracite lacquer. This all makes the table weather resistant and easy to maintain.

Which variants does the anthracite foot volleyball table have?

The foot volleyball table is available in the colours green, blue, anthracite, natural concrete and anthracite concrete. All variants have the same weight, the same
